

NFDI4BIOIMAGE Newsletter – November 4th, 2022

Betreff: NFDI4BIOIMAGE Newsletter - Nov 4th - NFDI4BI approved by the GWK!

Von: nfdi4bioimage@uni-konstanz.de

Datum: 04.11.2022, 16:55

An:

Dear {NAME},

it is official: Today, the Gemeinsame Wissenschaftskonferenz (GWK) has decided to approve the funding for all eight NFDI consortia of the 3rd round that were recommended by DFG expert committee in June.

NFDI4BIOIMAGE will become an official NFDI consortium in 2023, with a funding start as of March. Additionally, six other disciplinary consortia (NFDI4Immuno, NFDI4Energy, FAIRagro, NFDI4Objects, NFDI4Memory, and NFDI4CS) and the cross-cutting consortium BASE4NFDI will be funded. We are extremely excited that our joint efforts have led to this great chance for improving bioimaging RDM with a strong contribution from the German bioimaging community. The press release by the Joint Science Conference is available here (in German): <https://www.gwk-bonn.de/fileadmin/Redaktion/Dokumente/Pressemitteilungen/pm2022-13.pdf>

We are now waiting for the formal approval documents and plan the next steps to get started. For sure, you will be hearing more of NFDI4BIOIMAGE in the future.

Again, we would like to express our gratitude to all supporters, all co-applicants, participants, partners and friends.

Best wishes from the NFDI4BIOIMAGE team,

Christian Schmidt
