An:

Dear {NAME},

With today's update on the NFDI4BIOIMAGE consortium, we inform you about opportunities to get in touch this month:

What's Upcoming?

On June 20th, from 1 pm to 2 pm, NFDI4BIOIMAGE will have an online Kick-Off event. The consortium structure and focus will be introduced, and several participants. The meeting is open for the public to get informed about NFDI4BIOIMAGE. Please register for the event: https://eu02web.zoom.us/meeting/register/u5EpcuiqrTsqGdIGNQboo5rSYleyX3YtF4 Cr

- Meet NFDI4BIOIMAGE members (and the related smaller-scale project I3D:bio) at the European Light Microscopy Initiative (ELMI) meeting this week. Several members of our consortium are attending the conference in Noordwijkerhout, NL. Check the program here to see where you can meet us (look for Susanne Kunis, Stefanie Weidtkamp-Peters, Josh Moore, Werner Zuschratter, Jan Huisken, Thomas Zobel, Christian Schmidt)
- On June 29th, our co-spokesperson Elisa May will talk about Data Management Infrastructure projects NFDI4BIOMAGE and I3D:bio at the Core Technologies for Life Sciences (CTLS) Congress in Ireland. Check out the Congress program here.
- NFDI4BIOIMAGE members will attend the Conference on Research Data Infrastructures (CoRDI) from September 12th to 14th. Get more information on the conference here: https://www.nfdi.de/cordi-2023/
- Reminder for GerBI-GMB members: June 13th, 15:00-16:30: The technique of OMERO: In this event, the technical details of OMERO are discussed, what are the difficulties when setting it up, what is involved in maintaining it, and questions about how to use OMERO.

Further information on these events are to follow at: https://gerbi-gmb.de/news/

What's new?

The NFDI4BIOIMAGE project office was installed.
 Two project coordinators are available for you:
 Katharina Schmitz – Administrative Coordinator (HHU Düsseldorf)
 Christian Schmidt – Networking Coordinator (DKFZ German Cancer Research Center)

Please find our contact details here: https://nfdi4bioimage.de/en/get-involved/

What's to read?

- Are you interested in spatial omics technologies? Find here two recent pre-print publications (contributions from NFDI4BIOIMAGE via Josh Moore, co-leader of Task Area 1):
 - About a new spatial data framework: Marconato et al.: SpatialData: an open and universal data framework for spatial omics, 2023 BioRxiv, https://doi.org/10.1101/2023.05.05.539647
 - On a webatlas pipeline for sharing integrated datasets: Li et al.: Webatlas pipeline for integrated single cell and spatial transcriptomics data, 2023 BioRxiv, https://doi.org/10.1101/2023.05.19.541329

Kind regards,

Katharina Schmitz and Christian Schmidt
