

## NFDI4BIOIMAGE Newsletter – March 13<sup>th</sup>, 2023

**Betreff:** NFDI4BIOIMAGE Newsletter - March 13th - NFDI4BIOIMAGE started

**Von:** nfdi4bioimage@uni-konstanz.de

**Datum:** 13.03.2023, 15:00

**An:**

Dear {NAME},

On March 1st, the NFDI4BIOIMAGE consortium started officially as part of the NFDI. See a [news article at Informationsdienst Wissenschaft](#) contributed by our co-applicant institution, Leibniz-Institute for Neurobiology (LIN). While the consortium is just starting, here we share some general information of interest with you:

### Dates, activities, and opportunities to meet:

- **Trends in Microscopy Conference - March 21st to 24th, Münsingen**  
Meet members of the consortium at this year's [Trends in Microscopy Conference](#) and learn about their fields of research. J. Huisken (Uni Göttingen) is present as a keynote speaker and workshop host, T. Zobel (WWU Münster) and J. Chen (Leibniz ISAS, Dortmund) will contribute with workshops. Our speaker, Stefanie Weidtkamp-Peters (HHU Düsseldorf), and several Task Area Leaders in the consortium will be attending the conference which is organized by our co-applicant German BioImaging e.V.
- **2nd Workshop on FAIR Data in Plasma Science - May 3rd and 4th, Bochum**  
Co-organized by our participating institution, Leibniz-Institute for Plasma Science and Technology, the 2nd workshop on FAIR data in Plasma Science will take place in Bochum with the opportunity for online participation. Find more information here: <https://www.plasma-mds.org/ws-fair-data-plasma-science-2.html>
- **Community Call on Metadata in OME-NGFF - March 15th, 11 am or 6 pm**  
Not only is a new cloud-ready file format being developed (with a major contribution by J. Moore, who is also an NFDI4BIOIMAGE Task Area Co-Leader for GerBI-GMB e.V.), but also the proper incorporation and representation of metadata is a vital aspect of it. See this open community call to learn about this topics, express the practical metadata needs for your microscopy purposes, and connect to many experts in this field: <https://forum.image.sc/t/community-call-metadata-in-ome-ngff/77570>
- **Save the date: 1st Conference on Research Data Infrastructure (by NFDI) - Sept. 12th to 14th**  
This public conference is organized by the NFDI association and is open to both NFDI members and anyone interested in research data management. While more information is still to be awaited, [find the announcement](#) here and save the date for your participation
- **For Max Planck Society members: NFDI@MGP Workshop from April 19th to 22nd, Schloss Ringberg**  
In this workshop, members of the Max Planck Gesellschaft are invited to exchange about the NFDI-activities within the MPG. Open to consortia members, but also MPG employees with an interest in RDM. Find the announcement here: <https://indico3.mpi-magdeburg.mpg.de/event/31/>

- **For Max Planck Society and GerBI-GMB members:**
  - 1) April 25th, 15:00-16:30: **The perks of OMERO:** In this event, we will discuss the advantages of OMERO, how it makes lab work and collaborations easier, and how can we all profit from a functioning OMERO.
  - 2) June 13th, 15:00-16:30: **The technique of OMERO:** In this event, we will discuss the technical details of OMERO, what are the difficulties when setting it up, what is involved in maintaining it, and questions about how to use OMERO.

Further information on these events are to follow at: <https://gerbi-gmb.de/news/>

Events in the context of the Nationale Forschungsdateninfrastruktur in general can be found here: <https://www.nfdi.de/termine/>

## Other events and meetings (in-person, hybrid, online)

- **Euro-BioImaging's Guide to FAIR BioImage Data Workshop**  
March 28th, 2 pm - 5 pm  
[https://www.eurobioimaging.eu/upload/Euro-BioImaging\\_FAIR\\_Workshop\\_Program.pdf](https://www.eurobioimaging.eu/upload/Euro-BioImaging_FAIR_Workshop_Program.pdf)
- **8th IEEE Workshop on Computer Vision for Microscopy Image Analysis (CVMI)**  
June 19th  
<https://cvmi-workshop.github.io/>
- **5th NEUBIAS Conference**  
May 8th - 12th, Porto, Portugal  
<https://eubias.org/NEUBIAS/neubias2020-conference/portugal-2023/>

## Job Opportunities in the NFDI4BIOIMAGE project:

- Research Data and Software Engineer at the Leibniz Institute for Neurobiology, Magdeburg: <https://ncloud.lin-magdeburg.de/s/bHo6H7pKiHgwcmL>
- Jobs will also be announced via <https://www.nfdi.de/jobs/>

Best wishes,

Christian Schmidt
