Dear NAME,

in this newsletter, we are excited to announce that the DFG informed us about the NFDI expert committee's decision today:

NFDI4BIOIMAGE will be recommended for funding to the joint science conference (GWK). The final decision will be made by the GWK in November, and we hope very much that the GWK will follow the expert committee's recommendation as it did the years before.

The funding recommendation is already great news for the German bioimaging community and we are very grateful to all co-applicants, participants, partners, supporters and friends.

[Here is GerBI-GMB's tweet](#) showing all of our's excitement about the news!

We are looking forward to working together with the community on this great endeavor.

Best wishes from the NFDI4BIOIMAGE team,

Christian Schmidt
